The draft trade estimate that [REDACTED] now has in hand is really the one which 25X1A9a
was called for publication in February 1965 (per EIC-M-106, 12 Aug '65).

However, there was an article published (Codeword) in CIWR on 12 March
which included practically all the information available at that time. I told

25X1A9a [REDACTED] that the present estimate was not to be published as an ORR report
without your express permission.

The Transportation Working Group is meeting next week to iron out details
for preparation of their contribution.
